

# Pine Harbour Marina Electrical Power Use Compliance Form

## Re: Electrical (Safety) Regulations 2010 & NZECP 29 (1993)

Boat Owner/Agent:.....Phone No:.....

Boat Name: .....Berth No:.....

Private Pleasure Vessel?.....Yes/No                      Commercial/Charter Vessel?.....Yes / No

I/We CERTIFY THAT:

A. My/Our vessel will have an unattended shore power lead from an approved power outlet at the Marina power module to an onboard installed electrical system.

I/We will display the regulation current Warrant Of Electrical Fitness (not more than 4 years old) in a position on my vessel readable from the walkway or finger of the berth. A copy of the WOEF will be lodged with the Pine Harbour Marina office.

**Yes/No**

**NOTE:**

The power lead must be fitted with an approved 3 pin, round pin (caravan) type plug which would connect to a matching round pin socket mounted on the module.

**Standard 3 pin, flat pin plugs and sockets do Not comply.**

Approved outlets can be installed on the module, at the Boat owners cost, on application to the Marina.

Warrant of Electrical Fitness No:.....Date Issued:.....Expiry Date: .....

**OR**

B. My/Our vessel will require a power lead from the marina module from time to time which will be connected to **a portable appliance**. This appliance, and the power lead, will be certified and show the current sticker/label for inspection.

**Yes / No**

I understand the terms of usage of marina power supplies and will comply with the NZ Electrical Wiring Regulations pertaining to Marinas & Pleasure craft (ELCP 29).

**Signed:**

Boat Owner / Agent:..... Date:.....

**If this form is not completed and returned, any power lead may be disconnected.**

- NOTE:**
- 1. Only one lead (either A or B) can be taken from the power module.**
  - 2. All leads shall be fitted with lead restraints at vessel and module ends.**
  - 3. Leads must not have joins or damaged insulation.**
  - 4. Commercial or Charter vessels involve special requirements.**
